

EXP 4B	Data Modelling and Form Design (Advanced Fields)
---------------	---

Aim

To design and extend a Library Book Issue Request Form in Zoho Creator by incorporating all the required Advanced Fields, validations, lookups, calculations, media uploads, and system-generated values for efficient library book issue management.

Fields Used

Field Type	Field Name
Decision Box	Requires_Home_Delivery
Rich Text	Library_Rules_Display
URL	Ebook_Reference_URL
Image	Book_Cover_Image
Percent	Late_Fee_Waiver_Percent
Currency	Fine_Amount_Due
Decimal	Book_Replacement_Price
Date-Time	Request_Submitted_On
SubForm	Additional_Books_Requested
Lookup	Book_Title_Lookup
Signature	Member_Digital_Signature
File Upload	Faculty_Recommendation_Upload
Audio	Special_Request_Voice_Note
Video	Book_Review_Video
Auto Number	Issue_Request_ID
Formula	Total_Fine_Payable
QR/Barcode	Book_Issue_QR_Code

Extended Form Layout (Section-wise)

The sections below are added to the existing Member, Contact, and Book Request Details sections of the basic Library Book Issue Request Form.

Section E — Catalog Verification & Reference

- Book Title Lookup (Lookup field, auto-fills from master Book Catalog table)
- Book Cover Image (Image field)
- Ebook Reference URL (URL field)
- Book Replacement Price (Decimal field)

Section F — Multi-Book Request & Media Details

- Additional Books Requested (SubForm field, repeating rows)
- Faculty Recommendation Upload (File Upload field)
- Book Review Video (Video field, optional)
- Special Request Voice Note (Audio field, optional)

Section G — Fine & Delivery Preference

- Requires Home Delivery (Decision Box)
- Fine Amount Due (Currency field)
- Late Fee Waiver Percent (Percent field)
- Total Fine Payable (Formula field, read-only, auto-computed)

Section H — Declaration & System-Generated Values

- Library Rules Display (Rich Text field, read-only reference block)
- Member Digital Signature (Signature field)
- Request Submitted On (Date-Time field, auto-captured)
- Issue Request ID (Auto Number field, system-generated)
- Book Issue QR Code (QR/Barcode field, system-generated from Issue Request ID)

Validation Rules to Configure

- Lookup field (Book Title Lookup): connected to a master Book Catalog form; members type-ahead search and select rather than typing free text.
- SubForm (Additional Books Requested): configured to allow a minimum of 0 and a maximum of 4 rows per request.
- File Upload (Faculty Recommendation Upload): restrict accepted formats to PDF, JPG, and PNG, with a maximum size of 5 MB.
- Image (Book Cover Image): restrict accepted formats to JPG and PNG only, with a maximum size of 2 MB.
- Video (Book Review Video): restrict maximum duration to 45 seconds and maximum size of 50 MB.
- Percent (Late Fee Waiver Percent): restrict value range from 0 to 100, editable only by library staff.
- Currency (Fine Amount Due): restrict to non-negative values only, formatted in INR (₹).

- Formula (Total Fine Payable): set as a read-only field, recalculated automatically whenever Fine Amount Due or Late Fee Waiver Percent changes.
- Auto Number (Issue Request ID): configured with prefix "LIB-ISS-", the current year, and a 6-digit auto-incrementing sequence.
- QR/Barcode (Book Issue QR Code): configured to auto-generate immediately after the Issue Request ID is assigned on submission.
- Signature (Member Digital Signature) and Decision Box (Requires Home Delivery) are mandatory fields; the form cannot be submitted without them.

7. Workflow Summary

Step 1: Member completes the existing basic-field sections (personal, contact, and book category details).

- Step 2: Member searches and selects the exact book using the Book Title Lookup field, which auto-fills the author, ISBN, and shelf location.
- Step 3: If additional books are needed in the same visit, they are added as rows in the Additional Books Requested SubForm.
- Step 4: Member uploads a faculty recommendation (if required) and optionally a book review video or a voice note for special requests.
- Step 5: Member indicates whether home delivery is required, and any Fine Amount Due, Late Fee Waiver, and computed Total Fine Payable are displayed.
- Step 6: Member reviews the Library Rules rich text block and provides their Digital Signature to commit to returning the book(s) on time.
- Step 7: On Submit, Zoho Creator auto-generates the Issue Request ID, timestamps the Request Submitted On field, and generates the Book Issue QR Code.
- Step 8: Library staff review the Book_Issue_Request_Report, verify catalog availability and uploaded documents, confirm the fine against Total Fine Payable, and scan the QR code to process the issue quickly at the counter.

Result

The Library Book Issue Request Form was successfully designed with the required Advanced Fields and validations. The form was successfully submitted, and the request was displayed in the report. The email notification workflow was successfully configured and the confirmation email was received.
